

Welcome! Heritage Christian School has been providing a Christ-centered, academically-challenging environment to students for over 50 years – founded in 1971 by the Tacoma Bible Presbyterian Church. It is a privilege for us to have educated thousands of children over the years. Families have chosen Heritage as their partner in educating and growing their children for many different reasons, with three reasons in particular standing out:

Heritage provides a Christ-centered learning environment. A Heritage education supports families according to Biblical guidelines (Deut. 6:7 and Eph. 6:4). Our primary purpose is to lead our students to receive Jesus as Savior, to live according to Biblical truths, and to become responsible citizens. All students enrolled at Heritage memorize Scripture verses each week, as well as selections from the Westminster Catechism. Weekly chapel services include time for musical worship and hearing Biblical messages. Special programs, such as the annual Christmas program, emphasize spiritual truths and involve all students. Our teachers teach from a distinctly Christian worldview throughout every subject area. All these things are done with the desire to instill a love for God and a love for God’s Word in our students’ hearts.

Heritage provides an academically-challenging learning environment. We seek excellence in all things, but especially in academics. We strive to maintain a rigorous academic standard for all our students. Students at Heritage routinely score in the top 20% nationally on standardized exams.

Heritage provides the most affordable private Christian education in the area. The economy continues to affect many families. Because of our commitment to providing Christian education to as many families and children as possible, we have kept tuition rates as low as possible.

Investing in our children’s education is the best investment a parent can make. We will be praying for your schooling decisions. Please call us at (253)564-6276 or email us at info@heritagecs.net with any questions.
